

BT Wholesale Global Fixed Interest Fund

Fact Sheet
June 2011

ARSN: 009 567 558

About the Fund

The BT Wholesale Global Fixed Interest Fund actively seeks out investment opportunities within a broad portfolio of international fixed interest securities.

The management of BTIM's global fixed interest portfolios is outsourced to US-based BlackRock Financial Management Inc., a premier provider of international investment services across a broad range of asset classes. BlackRock has a cross-disciplinary team approach, which enables BTIM to benefit from the pooled expertise of all BlackRock's resources: its investment and risk management professionals, and its highly sophisticated, integrated, proprietary analytical tools.

Fund objective

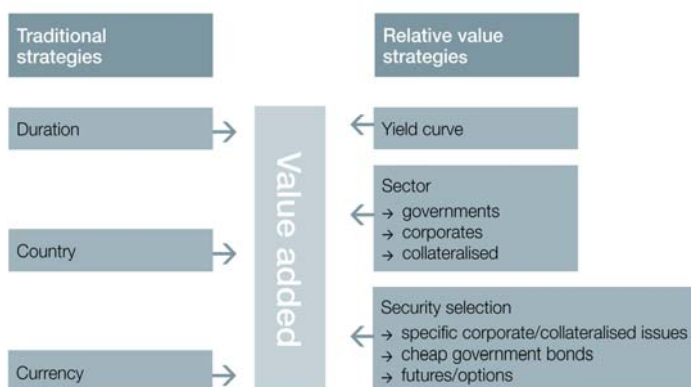

The Fund aims to provide a return (before fees, costs and taxes) that exceeds the Barclays Capital Global Aggregate Bond Index, hedged to AUD, over the medium term. The suggested investment timeframe is three years or more.

Investment approach

BlackRock's Global Bond philosophy is an extension of its risk-controlled approach that focuses on active sector/sub-sector rotation and security selection. BlackRock believes that this strategy is particularly well suited to today's dynamic global fixed income markets where the opportunity for relative value has increased.

Investment process

BlackRock's investment team employs multiple strategies to add value with an emphasis on exploiting relative value along the yield curve, across sectors and between individual securities. While value is also derived from traditional strategies, active exposures to country, currency and duration relative to the benchmark tend to be limited. In general, BlackRock expects 35% of value add to come from traditional strategies (duration, country and currency), while 65% is expected to come from relative value strategies (sector, security and yield curve).

BlackRock's portfolio construction is a two-stage process:

- Formulate strategies around major macro factors: country/bloc, currency and duration exposures
- Focus on relative value considerations: yield curve positioning, rotation between sectors and sub-sectors, and security selection are the key decision drivers

Performance

(%)	Total Returns		Benchmark Return
	(post-fee)	(pre-fee)	
1 month	-0.03	-0.02	0.22
3 months	2.36	2.47	2.87
FYDT	6.85	7.39	6.93
6 months	3.75	3.99	3.85
1 year (pa)	6.85	7.39	6.93
2 years (pa)	10.07	10.62	9.19
3 years (pa)	8.44	8.99	9.45
5 years (pa)	6.95	7.49	8.38

On 3rd November 2008 the benchmark name for this fund was changed to Barclays Capital Global Aggregate Bond Index Hedged to AUD.

Asset allocation (as at 30 June 2011)

Denmark	3.2%
France	1.9%
Germany	4.0%

Fees

Management fee	0.53% pa*
----------------	-----------

* You should refer to the latest Product Disclosure Statement for full details of fees and other costs you may be charged.

Market Review

International market performance in June has been driven by the Greek sovereign crisis and became more volatile toward the end of the month. US ten-year yields closed higher 12bp higher for the month. European and UK yield rose 13bp and 9bp respectively, while Japanese yields fell by 2bp. Australia outperformed US with the ten-year yield spread closing lower at 2.05%. The Australian currency marginally outperformed over the period with the trade-weighted index appreciating 0.37%. While the expectation of a slowing economic environment earlier in the month continued driving bond yields lower, risk assets (equities and commodities) suffered weakness. However, as the European crisis saw a temporary relief on the impending Greek default, the bond yields increased and risk assets recovered towards the end of the month. Positive performance from long duration in earlier June was offset by the later market volatility and June was closed flat to the benchmark. Globally economic data still suggests a slowing recovery.

Fund performance

The portfolio underperformed the benchmark over the quarter.

Our exposure to EUR peripheral markets detracted from performance as spreads shot up on contagion fears from Greece to Ireland, Portugal and even Spain and Italy.

Away from our macro trades, the positions in credit and other sectors had a modest positive impact on portfolio performance in Q2. US municipal bonds performed well on better newsflow, and our capital securities held up relatively well.

Strategy & Outlook

While the market volatility has been high, the global economy has clearly slowed over the past few months and this slowing has yet to be fully reflected in bond prices. The US fiscal situation and concerns over European peripheral debt continue to be significant risk events going forward.

BT Investment Management (RE) Limited ABN 17 126 390 627, AFSL 316 455, is the responsible entity and issuer of units in the BT Wholesale Global Fixed Interest Fund. A product disclosure statement (PDS) is available for the Fund and can be obtained by contacting your business development representative on 1800 813 886 or visiting www.btim.com.au. You should obtain and consider the PDS before deciding whether to acquire, continue to hold or dispose of units in the Fund. This information has been prepared without taking account of your objectives, financial situation or needs. Before acting on this information, consider its appropriateness, having regard to your objectives, financial situation and needs. An investment in the Fund is not a deposit with or any other liability of the Westpac Banking Corporation (ABN 33 007 457 141) or any other Company in the Westpac Group of companies.

Performance figures are calculated in accordance with the Investment & Financial Services Association (IFSA) standards. Total returns (post-fee) are calculated: to the last day of each month using exit prices; taking into account management costs of the fund; assuming reinvestment of distributions (which may include net realised capital gains from the sale of assets of the fund). No reduction is made to the unit price (or performance) to allow for tax you may pay as an investor, other than withholding tax on foreign income (if any). Certain other fees such as Contribution fees or Withdrawal fees (if any) are not taken into account. Total returns (pre-fee) are calculated by adding back management costs to the (post-fee) returns. Past performance is not a reliable indicator of future performance.

If market movements, cash flows or changes in the nature of an investment (eg a change in credit rating) cause the Fund to exceed any of the investment ranges or limits in this document, this will be rectified by BTIM (RE) as soon as reasonably practicable after becoming aware of it. If BTIM (RE) does so, it will have no other obligations in relation to these circumstances. The procedures, investment ranges, benchmarks and limits specified in this document are accurate as at the date of its issue, and BTIM (RE) reserves the right to vary these from time to time.

BT Investment Management (RE) Limited is a member of the Westpac Group. Neither BT Investment Management (RE) Limited, nor any other company in the Westpac Group, guarantees the repayment of capital or the performance of the product or any particular rate of return.
